Inya Economics
Impact Report 2023

Organization Background

Inya Economics was founded in 2017 and is a local independent think tank, especially emphasizing sustainable and inclusive development in holistic and alternative ways as well as policy and academic progress for people's prosperity. Inya Economics focuses on economic knowledge advancements in democratic ways and sharing economic value with humanity for the well-embedded in society. It is fortifying policy consideration and evidence-based research to the policymakers, government, and non-profit and profit organizations, which intends to the prosperity of the development of the public and private sector.

For that purpose, Inya Economics has been implementing three major programs in 2023: Economics Education Program, Economic Research Lab Program, and Green Economy Program.

Inya Economics has published an academic journal called Inya Economic Journal since 2017. Besides, bulletins and articles related to development issues in Myanmar are published occasionally.

Our Values

- Innovation: We approach problems with innovative and effective solutions.
- Evidence-based: We are considering utilising evidence-based strategies.
- Accountability – We are responsible for our actions and follow the principle of doing no harm.
- Transparency – We maintain the organization's reputation and image.
- Independent—We are a local independent think tank.
- Inya Economics respects diversity and human rights in terms of gender, ethnicity, religion and beliefs and political ideology. The organization does not tolerate any form of segregation over fundamental rights. The organization values these inherent rights. Based on our firm beliefs and standpoint, the organization dedicates and works for an inclusive economy as the means to sustainable economic development.

Our Vision

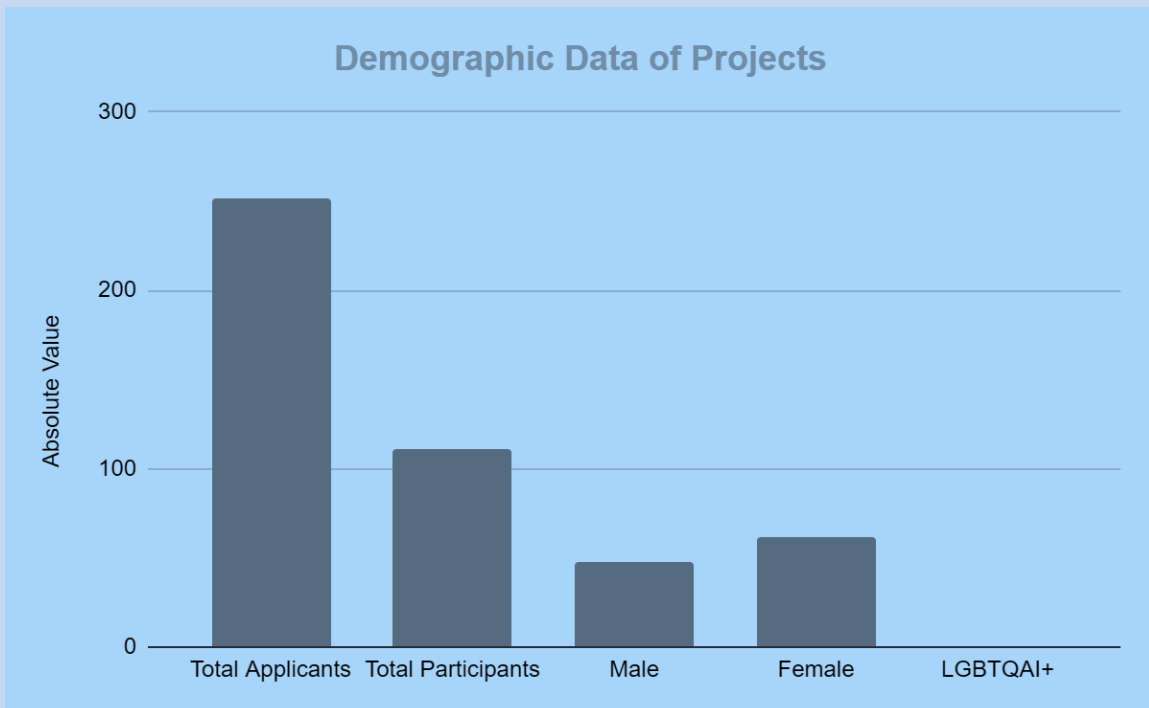

“To strengthen the economic development of Myanmar.”

Our Mission

Myanmar's sustainable economic development can definitely only be achieved in the context of a democratically accountable political system.
